

# Job Time Entry<sup>®</sup>

Employee Self Service

For Microsoft Dynamics NAV

## Real Time Labor Allocations

Eliminate the clerical effort to accurately enter 50 Times Cards per day with 3 to 5 Job / Task entries on each one. Enable your staff to post their Job time to the Manager's Approved Worksheet. The manager reviews the entries, edits if needed, and then approves the entries for instant Job Allocation. This granules uses "Web Services" to minimize the cost of multiple Data Collection Stations. Ask us about using "Tablets" as the time entry station.

## Benefits:

- Your Job Data is always current and accurate
- Written in and developed for Dynamics NAV
- Works with base Jobs Granule or Job Manager too
- NAV does not have to be installed on your PC or Tablet. (Team License/terminal)
- Easy Installation and Setup
- Efficient and Accurate Time Allocations
- Use Job Time Entry for an accurate Clock In and Clock Out Process

## Job Time Entry

Job Time Entry is a special entry screen for employees to enter their own Time per Task. Once the entry is "Approved", the time moves to the Job Journal for regular Posting to the Job Ledger Entries.
